MHC presents Minding Dad

Eye care. Check. Urgent Care. Check. Theatre play. Check.

What?

Misericordia Health Centre usually isn't in the business of presenting plays, but Minding Dad was just too good of an opportunity to pass up.

Minding Dad was an emotional and critical hit at the Winnipeg Fringe Festival this summer. Misericordia staff saw the show and convinced our Foundation it was a perfect fit for MHC's long-term care programs and to share with the community our vision of healthy aging.

In RibbitRePublic Theatre's Minding Dad, Jon Paterson plays a son trying to make his father's life as rich as he can while watching him gradually fade into the mist of Alzheimer's disease. Although it is a common story with pain, it is also one with humour and even hopefulness.
