

PRIME: Staff Profile

My name is Jackie, and I am one of the Medical Office Assistants. You will find me working at the front desk in PRIME. I have worked at Misericordia Health Centre for 20 years. I started out working as a Health Care Aide then decided to return to school for the Unit Clerk course. I worked at Breast-Check for five years until I joined the PRIME team in 2015. I enjoy dancing, reading, travelling, playing badminton, walking in the park and cross-stitching in my free time.

One of the reasons I enjoy working at PRIME is my love for the clientele we serve. The ability to make someone smile first thing when they come through the door gives me such pleasure. Getting to know more about the clients when I have an opportunity for one on one conversation is the highlight of my day. It is great to know that I make a small difference in their daily lives. PRIME is truly a wonderful place to work.
